

## Magnetic Dash Mount

---

Mount your smartphone securely to your dashboard with powerful magnets

**Overview:**

Aluratek's Magnetic Dash Mount is the most compact and sturdy mounting solution for your car on the market today. The dash mount uses a powerful magnet to securely hold your smartphones and other mobile devices in place. Once installed, AUCH02F allows for full 360-degree rotation giving you customizable viewing angles making it perfect for web browsing, navigation, hands-free calling, and more. The Magnetic Dash Mount is more compact, stylish and stable than most vent mounts.

The Magnetic Smartphone Dash Mount accommodates most smartphones as well as their cases. Installation of the mount is fast and easy. Affix the base of the mount to your dashboard utilizing strong 3M adhesive. Choose between one of the included two sized magnetic disks to adhere to the back of your smartphone or smartphone case. Simply hover your device near the magnetic mount and it will instantly lock in place. Your smartphone will hold strong regardless of road vibrations or impacts.

Strong 3M adhesive firmly hold the mount in place on a variety of surfaces such as wood, glass, plastic and metal. Not just for dashboards, stick the mount anywhere you wish like on desks, workbenches and kitchen counters. The mount can be easily detached from any surface and reinstalled.
