WiFi Internet Radio with 7" Touchscreen Display

 **Google Play** Instant access to over 1 million apps

Dual Powered - AC and Built-in Rechargeable Battery

Overview:

Aluratek's WiFi Internet Radio Media Player with 7" Touchscreen Display is the next generation internet audio media streamer that lets you access any app from the Google Play Store. Instantly access your photos, music, videos and YouTube from the home screen tiles. Customize your home screen apps to anything you want up to six favorites. Use can also use your radio as a convenient multi-tasking tool utilizing clock, calendar, weather, alarm, social media and memo apps to help you through your day.

With the easy to navigate controls, the WiFi Internet Radio features a color touch screen LCD display along with built-in dual high fidelity speakers for crystal clear sound quality and clarity. Simply connect the radio to an existing wireless WiFi network in your home, office, college dorm, or anywhere you want to enjoy an unlimited amount of music, talk, news, sports, photos, videos and more.

Weighing just 2 pounds, the internet radio is extremely portable making it easy to place in any room. The built-in rechargeable lithium-ion battery allows for up to 5 hours of streaming on a full charge so you can listen to streaming audio anywhere you like. You can also transfer your MP3's from you MAC or PC computer directly to the internet radio's 8GB built-in internal memory.

Impressive Sound Quality

AIRMM05F features dual (5W + 5W) front facing channel speakers that provide superior sound quality and the best listening experience possible in a small yet powerful footprint. Ideal for instances where you want to add audio quickly and easily to a room. Bring it into the kitchen to listen to a iHeartRadio podcast while cooking. Take it to the garage to groove to your favorite Pandora station while you work. Wherever it goes, you can be sure the WiFi Internet Radio will fill any room with dynamic, rich sound.

Touchscreen Color LCD Display

The WiFi Internet Radio Media Player features a large 7" vivid color touchscreen LCD (1024 x 600) that provides fast and easy navigation through the app based menus. Easily swap out up to six favorite apps on the home screen. Icons at the bottom of the screen will allow you to access the home screen, control the volume, back menu and task switcher.

Easy To Use Controls

In addition to the touchscreen display, you can control the WiFi Internet Radio Media Player with the push button controls on top of the unit that allow you to power ON / OFF and control the volume.

Connectivity Flexibility

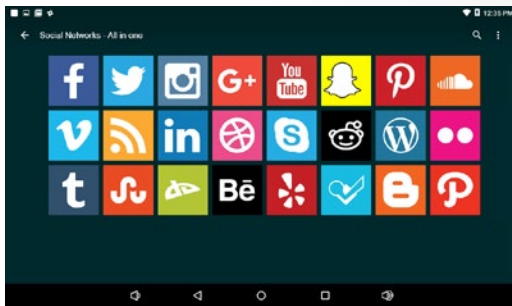

- Connect easily to any WIFI 802.11 b/g/n wireless network.
- MicroSD card (up to 32GB) support to access your media.
- Connect a PC, MAC or other music source to the media player's USB port to transfer files directly to the radio's 8GB built-in memory.
- 3.5 mm headphone jack is conveniently located at back
- Features a built-in front facing camera so you can enjoy video conferences and video calls with apps like Skype, WeChat and Line.

Photo, Music and Video Apps via Google Play

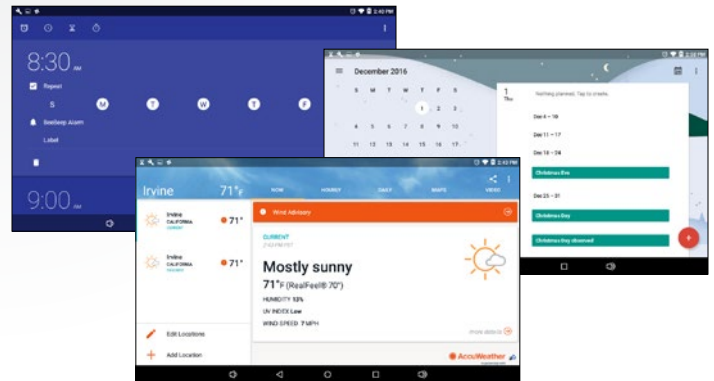

Instantly access over 1 million apps from the Google Play Store. Stream thousands of radio stations, listen to your favorite sports program, get the latest news updates or stream your favorite podcast with iHeartRadio, Pandora®, Spotify® and more. Access YouTube to enjoy an endless number of videos or catch up on your favorite TV episodes with Netflix. Access your digital files from the Google Photo and Google Play Music apps.

Social Media Access

Easily access Facebook, Twitter and Instagram. Keep your photos and videos within reach with the Amazon Drive, Gallery and Flickr apps so you can access your digital content anywhere you and your internet radio go.

Convenient Multitasking Tool

Use your radio as a convenient multitasking tool by utilizing the dozens of clock, calendar, weather, alarm and memo apps. Weighing just 2 pounds, the WiFi Internet Radio Media Player is extremely portable making it easy to place in any room. The built-in rechargeable lithium-ion battery allows for up to 5 hours of streaming on a full charge to help you through your day.
