

Universal Travel Adapter with Dual USB and Built-In 3,000 mAh Battery Charger

.....

The ideal universal travel adapter to
safely power and charge all your devices

Overview:

Aluratek's Universal Travel Adapter with Dual USB and Built-In 3,000 mAh Battery Charger is the perfect solution to charge any AC and USB powered devices while traveling. When traveling overseas, charging your electronics is very crucial and trying to figure out what adapter you need can be frustrating.

The Universal Travel Adapter's plugs are compatible with any AC power socket and can be used with any plug globally. The adapter is compact with foldable prongs making it ideal for frequent travelers. Feel secure in knowing you have a circuit and fuse protected power source that is reliable in over 150 countries.

Features:

- Includes 4 interchangeable sockets compatible with any AC outlet
- Accepts power plugs from over 150 countries
- Includes 2 USB ports to charge any USB powered devices such as smart phones, tablets, portable battery chargers, etc. (Original charging cable required)
- Built-in lithium-ion rechargeable battery with 3,000 mAh power capacity
- Charges up to 3 devices simultaneously (x2 USB ports, 1 outlet)
- USB 5V/2.5A output
- Power protection - complete circuit & input fuse protection
- Small, lightweight adapter - perfect for the frequent traveler
- Limited 1 Year Warranty

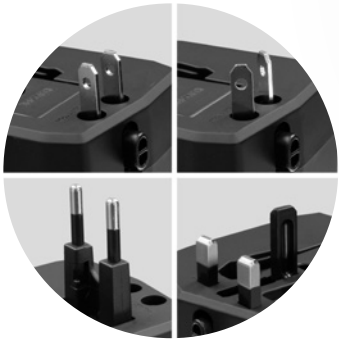

Versatile USB Charging (2-Ports)

The Universal Travel Adapter with Dual USB and Built-In 3,000 mAh Battery Charger includes 2 USB ports to charge most USB powered devices such as battery chargers, smartphones, tablets, gaming devices, mp3 players, bluetooth devices, and more. The ATCP03F allows simultaneous use of the AC power socket and dual USB ports so you never lose an outlet plug. The original charging cable that came with your mobile device is required.

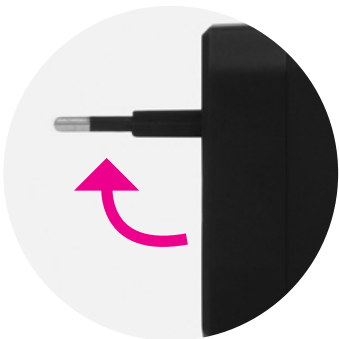

On-The-Go Charging

The Universal Travel Adapter with Dual USB and Built-In 3,000 mAh Battery Charger utilizes the latest in lithium-ion rechargeable technology, offering a 3,000 mAh power capacity with 5V/2.5A output.
