Receiver / Transmitter Product Highlights

*In SPDIF mode, connect devices through SPDIF IN for TX mode and SPDIF OUT for RX mode

Bluetooth Earbuds and Charging Case - Product Highlights

Charging the True Wireless Earbuds/Battery case

The battery is not fully charged and it is highly recommended that you charge the headset before you begin using it. The earbuds feature a rechargeable battery for up to 5 hours of continuous talk and music play. The case (with built-in battery) holds multiple charges for up to 15 hours of listening time.

Charging the True Wireless Earbuds

Connect the larger USB end of the provided cable to your computer/power adapter (not included). Connect the smaller USB end to the USB port on the back of the True Wireless Earbud Battery case. Please charge the case for a minimum of 2 hours. The Blue LED will be flashing while charging. The Blue LED will turn off when it is fully charged.

Battery Charging Status

When the Earbuds Are in the Case:

1st LED: Blue means RIGHT earbud is charging. It will turn off when it is fully charged
2nd LED: Blue means LEFT earbud is charging. It will turn off when it is fully charged

When Battery Case is Open:

1-2 LED on: Case is 25% - 50% charged
2-3 LED on: Case is 50% - 75% charged
3-4 LED on: Case is 75% - 100% charged

True Wireless Earbuds - Device Operation (using with other devices)

True Wireless Earbud pairing instructions:

- Open the charging case, the earbuds will power on and pair to each other automatically. Please wait until the LED on the left earbud turns off and the LED on the right LED flashing Red/Blue before pairing to your device.
- Activate your device's Bluetooth function and set your device to search for Bluetooth devices. Select ABHTWS01F when it is found.
- If prompted by your device to connect, please select "Yes".
- After connecting successfully, the blue LED will flash every 5 seconds.

Power On:

Press the "Touch Panel" for 3 seconds.

Power Off:

Press the "Touch Panel" for 3 seconds.

Pause/Play music:

During music playback, short press the "Touch Panel" *

Next song:

During music playback, quickly press the "Touch Panel" twice *

Answer a call:

Short press the "Touch Panel" *

Using the Transmitter and Headphones with a TV

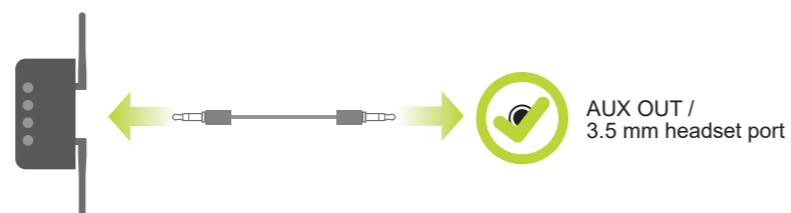

The Transmitter and Headphones are pre-paired and ready for use out of the box. Simply power on both devices and enjoy!

Note: ABCTWSKIT will try to reconnect when it is powered ON / OFF again or when it is out of range.

There are three ways to connect the Transmitter:

1 Connect using the AUX (3.5mm) cable.

Connect the Transmitter to the AUX OUT / headset (3.5mm) port on the back of your TV.

True Wireless Earbuds - Device Operation (using with other devices)

Hang up a call:

During a call, short press the "Touch Panel" *

Refuse a call:

When there is an incoming call, press the "Touch Panel" for 2 seconds *

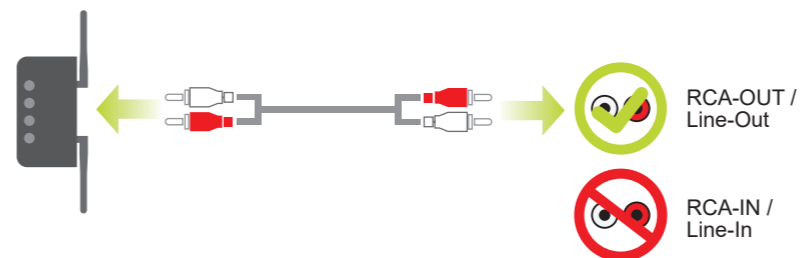

Note: Please make sure the audio output is set to Bluetooth for audio streaming from the device.

* These features can be done either on the left or right earbuds.

Using the Transmitter and Headphones with a TV

2 Connect using the RCA-Y cable.

When using the included RCA cable to connect to a TV or tuner / receiver, please make sure you connect to the RCA OUT. Some TV's may not have an RCA OUT. Connecting to the RCA IN will not work.

Radio and TV Interference Statement

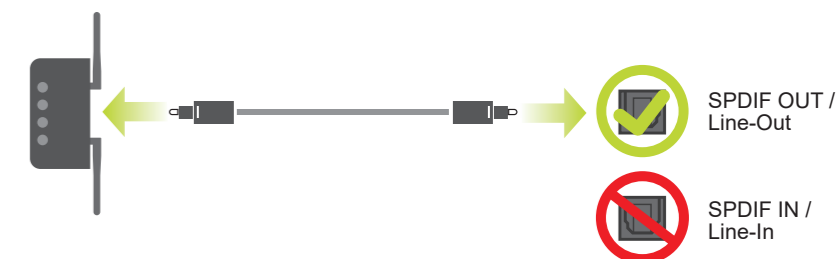

WARNING!!! This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by whatever measures may be required to correct the interference.

Using the Transmitter and Headphones with a TV

3 Connect using the Optical (SPDIF) cable.

When using the included Optical cable to connect to a TV or tuner / receiver, please make sure you connect to the SPDIF OUT on the TV / tuner and connect the optical cable to the SPDIF IN port on the transmitter.

Warranty

Aluratek warrants this product against defect in material or workmanship for **1 YEAR** from the date of purchase.

This warranty becomes invalid if the factory-supplied serial number or "warranty void" sticker has been removed or altered on the product.

This warranty does not cover:

- Cosmetic damage or damage due to acts of God
- Accident, misuse, abuse, negligence or modification of any part of the product.
- Damage due to improper operation or maintenance, connection to improper equipment, or attempted repair by anyone other than Aluratek.
- Products sold AS IS or WITH FAULTS.

IN NO EVENT SHALL ALURATEK'S LIABILITY EXCEED THE PRICE PAID FOR THE PRODUCT FROM DIRECT, INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THE PRODUCT, IT'S ACCOMPANYING SOFTWARE, OR IT'S DOCUMENTATION.

Aluratek makes no warranty or representation, expressed, implied, or statutory, with respect to it's products, contents or use of this documentation and all accompanying software, and specifically disclaims it's quality, performance, merchantability, or fitness for any particular purpose. Aluratek reserves the right to revise or update it's product, software or documentation without obligation to notify any individual or entity.
