Package Contents

Your order has been carefully packaged and inspected. The following should be included in your package. Please inspect the contents of the package to ensure that you have received all items and that nothing has been damaged. If you discover a problem, please contact us immediately for assistance.

- 8” Digital Photo Frame
- Remote Control
- USB 2.0 Cable (Type A to mini-B)
- Power Adapter
- Frame Stand
- Registration Card

Getting Started

- Remove the plastic insulator from the battery on the remote control
- Screw in the frame stand
- Plug in the power adapter
Main Menu

- Turn on the digital frame using the power button in the back of the frame or press the power button on the remote control.

- The On-screen Display (OSD) will show the Main Menu. Each icon represents the various functions available on the device: Photo, Video, Music, Calendar, File and Settings.

- Browse the different functions using the ◄ or ► arrow buttons and select a function by pressing the Enter button.

- Press the ▲ or ▼ arrow to browse the various storage options, use the ◄ or ► arrow buttons to select the storage media and select the functions such as photo or video by pressing the Enter button.
Transferring Files from your PC/Mac to the Frame’s Internal Memory

• A USB cable is included with your digital frame to connect it to your PC/ MAC. Connect the small connector to your digital frame and the larger connector to your PC / MAC.

• Once connected, the frame will display Connected to Computer. On a PC, the frame’s internal memory will appear as a removable drive when viewed in My Computer. On a Mac, the frame will appear as a drive icon on the desktop.

• Copy your photo, video and music files from your PC / MAC into the icon representing the frame’s internal memory. When finished disconnect the USB cable from the PC or MAC. (Note: For a Mac, eject the drive icon before disconnecting the USB cable.)

• The frame will return to normal operation once it is disconnected from your PC / MAC.
Managing Files in the Digital Frame’s Internal Memory

1. Select either the memory card or the USB device from the main menu.

2. Select File and press Enter.

3. A list of the files or folders contained on the storage source will be displayed. Browse the files using the arrow buttons. To select a file, press the ► button to select.

4. Select Copy to Internal to copy.

To delete a file, repeat steps 1-3 and select Delete to remove the selected file.
Photo Function

Setup a Photo Slideshow

• Select the source of the photos you wish to present in the slideshow by selecting NAND (Internal Memory), SD or USB storage options and pressing the ► button.

• Navigate to the Photo function using the ◄ or ► arrow buttons and press the Enter button to start the slideshow.

• During slideshow, press Setup button and select Photo Setup. This will provide you with the various options to customize your slideshow. Browse the options using the ▲ or ▼ arrow buttons and Enter button to confirm.

Photo Setup

• In Slideshow mode, you can enter the Photo menu by pressing the Setup button to set the slide, duration, background music, display rate and slide effect.

• To exit, press the Menu button.
Video Function

Playing Videos

• Select the source of the videos you wish to play by selecting NAND (Internal Memory), SD or USB storage options and pressing the ► button.

• Navigate to the Video function using the ◄ or ► arrow buttons and press the Enter button.

• Select the video that you wish to view and press the Enter button.

• Adjust the volume of the video playing using the VOL+ or VOL- buttons.

• To exit, press the Menu button.
Video Function

Video Setup

• To customize how videos are played back, press the Setup button while a video is playing. You may also access the Video menu by selecting Settings in the Main Menu. Browse options Display Mode and Play Mode using the ▲ or ▼ arrow buttons, Play and ◄ or ► to make the selection.

• To exit, press the Menu button.
Music Function

Playing Music

• Select the source of the music files you wish to play by selecting Memory (Internal Memory), SD or USB storage options and pressing the ► button.

• Navigate to the Music function using the ◄ or ► arrow buttons and press the Enter button.

• Select the song using ▲ or ▼ arrow buttons that you wish to play and press the Enter button.

• Adjust the volume of the song playing using the Vol+ or Vol- buttons.

• To exit, press the Menu button.
Music Function

Music Setup

• To customize how music played back, press the **Setup** button while the music is playing. You may select / change the Play Mode or **Show Spectrum** by using the arrow buttons.

• To exit, press the **Menu** button.
Calendar Function

Calendar Setup

• To configure custom settings for the Calendar, select the Settings function in the Main Menu and press the Enter button. Navigate to Calendar Setup using the ▲ or ▼ arrow buttons and press the Enter button.

• Use the arrow buttons to set the correct date and time.

• To exit, press the Menu button.
Auto On / Off Function

Auto On / Off Setup

• To configure Auto On / Off feature, select the **Settings** function in the Main Menu and press the **Enter** button. Then navigate to **System Setup** using the ▲ or ▼ arrow buttons and press the **Enter** button.

• Select **Power On** and press ► to change between ON / OFF.

• Select **Auto Boot Time** and set the power on time.

• Select **Power Off** and press ► to change between ON / OFF.

• Select **Auto Shut Time** and set the power off time.

• To exit, press the **Menu** button.
Alarm Function

Alarm Setup

• To set the Alarm, select the **Settings** function in the Main Menu and press the **Enter** button. Navigate to **Calendar** using the ▲ or ▼ arrow buttons and press the **Enter** button.

• Use the ▲ and ▼ to navigate to alarm ON / OFF, time of the alarm and the day for the alarm and use ◄ and ► to change the settings.

• To exit, press the **Menu** button.
Motion Sensor

The frame will automatically turn on when movement is detected up to 10 feet away. Slideshow or video play will resume. The frame will automatically shut off if no motion is detected so you don’t have to unplug your frame before going to sleep, leaving the office or worry about wasting energy.

Motion Sensor Setup

• To configure the motion sensor ON / OFF feature, select Settings in the main menu and press the Enter button. Then navigate to System Setup using the ▲ or ▼ arrow buttons and press the Enter button.

• Select Motion Sensor and press ◄ or ► to select the desired time (off / 10 seconds / 30 seconds / 2 min / 10 min)

• To exit, press the Menu button

Radio and TV Interference Statement

WARNING!!! This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by whatever measures may be required to correct the interference.
Warranty

Aluratek warrants this product against defect in material or workmanship for 1 Year from the date of purchase.

This warranty becomes invalid if the factory-supplied serial number or “warranty void” sticker has been removed or altered on the product.

This warranty does not cover:
A) Cosmetic damage or damage due to acts of God
B) Accident, misuse, abuse, negligence or modification of any part of the product.
C) Damage due to improper operation or maintenance, connection to improper equipment, or attempted repair by anyone other than Aluratek.
D) Products sold AS IS or WITH FAULTS.

IN NO EVENT SHALL ALURATEK’S LIABILITY EXCEED THE PRICE PAID FOR THE PRODUCT FROM DIRECT, INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THE PRODUCT, IT’S ACCOMPANYING SOFTWARE, OR IT’S DOCUMENTATION.

Aluratek makes no warranty or representation, expressed, implied, or statutory, with respect to it’s products, contents or use of this documentation and all accompanying software, and specifically disclaims it’s quality, performance, merchantability, or fitness for any particular purpose. Aluratek reserves the right to revise or update it’s product, software or documentation without obligation to notify any individual or entity.
