

4000 mAh Portable Battery Charger

Quick Start Guide

APB11F

Product Highlights

Connect your compatible digital device for charging*

Charge APB11F with the included Micro USB cable

*Original charging cable required

Operation

Charging the battery pack

The battery is not fully charged and it is highly recommended that you charge APB11F before you begin using it.

Note: Using APB11F "out of the box" will not harm the device. You will experience reduced battery life as the unit will not be fully charged.

To charge the device, connect the larger end of the USB cable provided to your PC or a USB power adapter (not provided) and the Micro USB end to APB11F. Once it is fully charged, the LED will turn from red to blue.

Radio and TV Interference Statement

WARNING!!! This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by whatever measures may be required to correct the interference.
