

12000 mAh Portable Battery Charger Quick Start Guide

APB14F

Product Highlights

Operation

LED flashlight

To turn the LED flashlight on or off, simply press the power button twice.

Charging the battery pack

The battery is not fully charged and it is highly recommended that you charge APB14F before you begin using it.

Note: Using APB14F "out of the box" will not harm the device. You will experience reduced battery life as the unit will not be fully charged.

To charge the device, connect the larger end of the USB cable provided to your PC or a USB power adapter (not provided) and the Micro USB end to APB14F. Once it is fully charged, all 4 Blue LEDs will be on.

Tech Support & Warranty Information

Checking the capacity

The power status LEDs will light up according to available power capacity.

Charging your digital device

Use the original cable that came with your device or a cable with suitable connector. Connect the USB tip to one of the USB Output ports on the battery pack. Charging will start automatically once the cable is connected.
